Gates is the global leader in timing belt innovation. For decades every major timing belt innovation has been pioneered by Gates. From tooth profiles to carbon cords and fabrics, Gates has been granted more timing belt patents in the U.S. than anyone else in the industry. If there's a car in the U.S. with a timing belt in it, we have the replacement part for it.

IMPORTS DEMAND GATES

Gates is Original Equipment Manufacturer (OEM) or Original Equipment Service (OES) supplier on 75% of the timing belts in the market today. As the OEM or OES supplier for virtually every vehicle manufacturer worldwide, you can be confident every time you install Gates. In North America Gates has over 260 timing belt SKUs for Import applications covering almost 60 million Import vehicles and thousands of SKUs worldwide.

DO THE JOB RIGHT THE FIRST TIME

The best way to guarantee a perfect and safe timing system is to change ALL of the timing belts and the drive components at the same time. Restore your customers' drive system to factory original condition with Gates Timing Belts and TimingComponent Kits.

GENUINE OE COMPONENTS

When you see the Genuine OE Component sticker on the box you are guaranteed the tensioners and idlers in the box are what came on the car originally.
